

June 23, 2009

Dear Jake

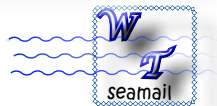

We're so far north we only have about 3 hours of pure night. We stayed on east coast time, so the sun rises at 2 a.m., which is really eerie.

Yesterday, we had a whale off the port bow. It only showed its dorsal fin,

but guessing by its length, fin shape, and the small blow, it is a minke whale.

51.26 latitude
-28.89 longitude

Until next time,
Tammy

Jake, the SeaDog
